**Social Issue:** Healthcare and personal connections with patients

**Importance:**
- Society needs to remember patients and their support systems
- To bring comfort and joy to those in need
- Build community

**Overview of Organization:**
- Located in St. Paul
- Cares for sick children
- Specialties include: Neonatal, Cancer/ Blood Disorders, Cardiovascular, Diabetes/Endocrinology, and Cystic Fibrosis
- Had 306,848 patients last year

**Plan and Summary:**
- Raised over $200 through bake sales and donations
- Corresponded with the hospital administration to find the hospital’s needs
- Discovered that the family members of patients needed support
- Purchased 32 DVDs for the families and patients

**Feelings:**
- Performing level of cooperation
- Looked into a variety of ideas and came up with creative solutions to social issues
- We were productive and effectively delegated tasks
- Resilient when things did not go as planned
