

ECOLOGY LETTERS

Volume 12 Number 10
October 2009

Ideas and Perspectives

- 1001 Advancing the metabolic theory of biodiversity
James C. Stegen, Brian J. Enquist & Regis Ferriere

Letters

- 1016 Reducing horizontal and vertical diversity in a foodweb triggers extinctions and impacts functions
Diane S. Srivastava & Thomas Bell
- 1029 Plant species loss decreases arthropod diversity and shifts trophic structure
Nick M. Haddad, Gregory M. Crutsinger, Kevin Gross, John Haarstad, Johannes M.H. Knops & David Tilman
- 1040 Are treelines advancing? A global meta-analysis of treeline response to climate warming
Melanie A. Harsch, Philip E. Hulme, Matt S. McGlone & Richard P. Duncan
- 1050 Serengeti real estate: density vs. fitness-based indicators of lion habitat quality
Anna Mosser, John M. Fryxell, Lynn Eberly & Craig Packer
- 1061 Performance of several variable-selection methods applied to real ecological data
Paul A. Murtaugh
- 1069 Selecting for extinction: nonrandom disease-associated extinction homogenizes amphibian biotas
Kevin G. Smith, Karen R. Lips & Jonathan M. Chase

- 1079 Niches versus neutrality: uncovering the drivers of diversity in a species-rich community
Remi Vergnon, Nicholas K. Dulvy & Robert P. Freckleton
- 1091 Changes in habitat specificity of species at their climatic range boundaries
Tom Oliver, Jane K. Hill, Chris D. Thomas, Tom Brereton & David B. Roy

Reviews and Syntheses

- 1103 A review of nitrogen enrichment effects on three biogenic GHGs: the CO₂ sink may be largely offset by stimulated N₂O and CH₄ emission
Lingli Liu & Tara L. Greaver

Cover caption:

Landscape patterns in Serengeti National Park: dry season rainfall, vegetation, rivers, adult female lion density, adult female lion reproductive success. From Mosser *et al.*, p. 1050. Photo credit: Anna Mosser.

Ecology Letters publishes *Early View* and *OnlineOpen* papers. *Early View* papers are fully reviewed and revised articles published online in advance of publication in a forthcoming printed issue. *OnlineOpen* service offers authors whose papers are accepted for publication the opportunity to pay up-front for their paper to become open access (i.e. free for all to view and download via the Wiley InterScience website). See Instructions for Authors for more information and visit www3.interscience.wiley.com to view *Early View* papers.

This journal is available online at *Wiley InterScience*. Visit www3.interscience.wiley.com to search the articles and register for table of contents e-mail alerts.

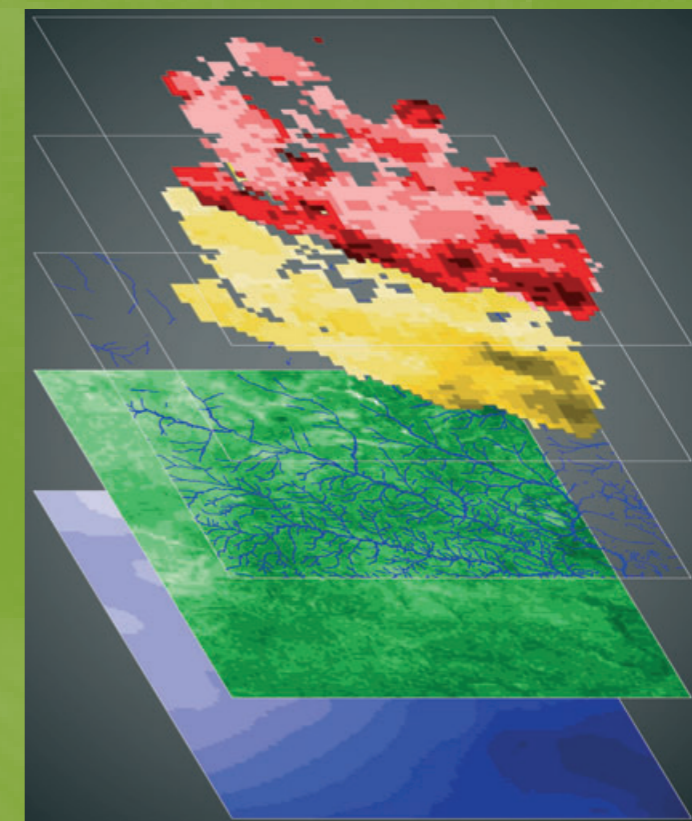

This journal is a member of and subscribes to the principles of the Committee on Publication Ethics.
