AHS 1600: The Future Physician I
Medicine in the 21st Century

This course is designed to introduce students to the field of medicine and healthcare. Content areas are chosen based on the hot topics that physicians identify as shaping the work they do, including: history of medicine, pop culture, technology, ethics, politics, privilege, the social determinants of health, etc.

One student said:
“The day Dr. Slattengren took us through a week in his life was the most eye-opening day of the semester and it made me want to become a physician more than anything else.”
