

CBS Pre-Health Alumna

Janaki Paskaradevan

“Take initiative and be committed to the things you decide to do. It’ll show!”

– Janaki Paskaradevan

Janaki Paskaradevan filled her calendar with activities that would prepare her for medical school while an undergraduate. She volunteered with Minnesota Medical Leaders, Biology Colloquium and the CBS Student Board, where she served as president her senior year. She also researched in Dr. Steve McLoon’s lab. Janaki spent time volunteering in the Emergency Department at Hennepin County Medical Center to gain exposure to the world of medicine.

Janaki is currently in her residency at Baylor College of Medicine.

Her advice to current undergraduates: avoid going through your CBS career with a specific checklist to fit the pre-med “mold”. Often finding a unique path in her undergraduate studies, Janaki suggests, “Take initiative and be committed to the things you do decide to do. It’ll show!”

Alum abstract

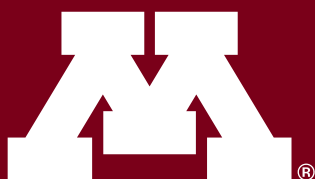

Neuroscience (2010)

Current position:

Pediatric Resident at Baylor College of Medicine/Texas Children’s Hospital

Future plans:

Practice in academic pediatrics with involvement in medical education and curriculum development

College of
Biological Sciences

UNIVERSITY OF MINNESOTA
